

**Recognise and remember
the ones you love.**

**Establish and name your very
own Endowment sub-fund.**

You can create lasting change for generations impacted by stroke, without any administrative burden. Discover how to establish your very own Stroke Foundation sub-fund.

Start your own Stroke Foundation Endowment Sub-Fund

Endowments are perpetual funds that literally last forever. The principal gift is invested in perpetuity and will never be spent down, leaving it to generate income that will benefit generations to come.

When developing a new sub-fund, you have the opportunity to allocate the name of your choosing to the dedicated fund which will allow your legacy gift to last forever.

We would love to talk to you about the possibility of setting up your very own sub-fund with Stroke Foundation.
